

Interactive... Experiential... Motivational!

Training activities and business simulations to enrich your courses and enthuse your delegates.

We supply the training resources and you choose how to use them in your training programmes.

Established for over 30 years, INNOWISE CONSULTING LIMITED has a unique range of training activities and business simulations which are ideal for staff training and development, recruitment and assessment.

Engaging Teamwork Activities and Business

Simulations

Our tried and tested experiential training activities are packed with valuable lessons for delegates to take back to the workplace. And our business simulations - activities where teams compete with one another to run an efficient business – allow delegates to practice business skills and apply business principles, while Trainers can assess both commercial awareness and teamwork skills.

Improving Performance

INNOWISE CONSULTING LIMITED's activities and business simulations present learning topics in an interactive format and require delegate participation, the vital ingredient, we believe, for effective learning.

Our aim is to make it easy for you to put experiential learning into your training programmes to ensure they are enjoyable, memorable and effective. From ice-breakers to 1, 2 or 3 hour teamwork activities or up to half-day or full day business simulations, there is something for every one of your courses!

Please browse the topic areas below or use the search box above. If you have any questions please send us a message at Stephen@innowise.com.hk.

About INNOWISE

Author

Dr Stephen HO: "Our brand of coaching teaches people to find and draw, from within, these abilities and this is the real value we bring to our students, clients, and coaching counterparts."

We produce a unique range of quality, highly-participative, table-top **management training games, activities and simulations**. Jam-packed with learning outcomes, Northgate activities energise delegates and enrich their learning experience.

Experiential learning - or - Learning by doing
INNOWISE activities present learning topics in an interactive format and require **delegate participation**, the vital ingredient, we believe, for effective learning. As the famous philosopher, Confucius, said:

I hear and I forget, I see and I remember, I do and I understand.

This highly regarded learning method has many advantages because it:

- engages and motivates participants
- allows for learning from each other (peer teaching)
- offers a chance for feedback and reflection
- encourages the development of workplace skills
- makes the learning memorable - and fun!

Bespoke activities

Sometimes it is impossible to find an off-the-shelf activity that does exactly what **you** want it to do.

You may want something personalised to incorporate your brand and

logo. You may want to use specific scenarios taken from your organisation.

You may want an outdoor, team treasure hunt activity to fit your unique venue.

In such cases a bespoke, or customised activity, is the best way forward. We work with you to identify **your specific needs**. Then, if we think it is a feasible project (and you agree), we will develop an activity to match your needs and with which you are happy.

For the next stage we either hand over the files to you or we can take the project through to the graphic design, printing and delivery. It's your choice.

You have sole use (and re-use) of the materials. None of the material is for re-sale under any circumstances.

**Conscious Choices -
Greatness is largely a
matter of conscious
choice, and discipline.**
